

Q5: Write a program that takes temperature in Fahrenheit from the user and converts it into Celsius using the formula: $c = 5/9 (F - 32)$

```
#include<iostream>

using namespace std;

int main() {

    float fahrenheit;

    float celsius;

    cout << "Enter the temperature in Fahrenheit "<<endl;

    cin >> fahrenheit;

    celsius = 5.0/ 9 * fahrenheit - 32;

    cout << "Temperature in Celsius: " << celsius << endl;

    cout<<" ISHAQKHAN____SAP:73423";

    return 0;

}
```

```
C:\maaz khan\ISHAQ CUBE.exe
Enter the length of the cube: 9
Enter the width of the cube: 8
Enter the height of the cube: 8
The volume of the cube is: 576
ISHAQKHAN ____SAP:73423
=====
Process exited after 6.113 seconds with return value 0
Press any key to continue . . .
```

Q6: Write a program that calculates the volume of a cube by taking its measurements (length, width, and height) from the user. Formula : $V = \text{length} * \text{width} * \text{height}$

```
#include <iostream>

using namespace std;

int main() {
    float length;
        float width;
            float height;
                float volume;

    cout<<"Enter the length of the cube: ";
    cin>>length;

    cout<<"Enter the width of the cube: ";
    cin >> width;

    cout <<"Enter the height of the cube: ";
    cin >> height;

    volume = length*width*height;

    cout << "The volume of the cube is: " <<volume<< endl;

    cout<<"ISHAQKHAN ___SAP:73423";

    return 0;
}
```

```
C:\maaz\khan\ISHAQ CUBE.exe
Enter the length of the cube: 9
Enter the width of the cube: 8
Enter the height of the cube: 8
The volume of the cube is: 576
ISHAQKHAN ___SAP:73423
-----
Process exited after 6.113 seconds with return value 0
Press any key to continue . . .
```

Q7: Write a program that takes marks obtained by a student in five subjects and calculates the total marks and percentage

```
#include <iostream>
using namespace std;
int main() {
    float subject1;
        float subject2;
        float subject3;
        float subject4;
        float subject5;
    float totalMarks, percentage;
    cout<<"Enter marks for Subject 1:";
    cin>>subject1;
    cout<<"Enter marks for Subject 2:";
    cin>>subject2;
    cout<<"Enter marks for Subject 3:";
    cin>>subject3;
    cout<<"Enter marks for Subject 4:";
    cin>>subject4;
    cout<<"Enter marks for Subject 5:";
    cin>>subject5;
    totalMarks=subject1+subject2+subject3+subject4+subject5;
    percentage= totalMarks / 500*100;
    cout<<"Total Marks ="<<totalMarks<<endl;
    cout<<"Percentage ="<< percentage<<"%"<<endl;
    cout<<"ISHAQKHAN____SAP:73423";
    return 0;
}
```

```
C:\maaz khan\ISHAQ TOTAL A x + v
Enter marks for Subject 1:78
Enter marks for Subject 2:89
Enter marks for Subject 3:67
Enter marks for Subject 4:56
Enter marks for Subject 5:45
Total Marks =335
Percentage =67%
ISHAQKHAN___SAP:73423
-----
Process exited after 8.859 seconds with return value 0
Press any key to continue . . . |
